RESOLUTION ON THE ADMINISTRATION OF THE STAMP DEPARTMENT IN BENGAL DURING THE YEAR 1911-12.

NOTIFICATION.

No. 185T.—S.-R.—The 29th July 1912.—The following Resolution by the Board of Revenue, L. P., regarding the administration of the Stamp Department in the districts constituting the new Presidency of Bengal during the year 1911-12, together with an abstract of the receipts and charges for the year, is published for general information.

H. L. STEPHENSON,
Secy. to the Govt. of Bengal.

No. 3368½B., dated Calcutta, the 8th July 1912.

RESOLUTION—By the Board of Revenue, L. P., Miscellaneous Revenue Department.

Member in charge:

THE HON'BLE MR. D. J. MACPHERSON, C.I.E., I.C.S.

THE annual statistics of the Stamp Department for the year 1911-12 have been compiled in the prescribed Statements I to VII for the new

Presidency of Bengal, comprising the districts of the Burdwan, Presidency, Dacca, Chittagong and Rajshahi Divisions, and also the district of Darjeeling which now forms one of the districts of the last-mentioned division.

2. The figures of general receipts and charges for the year 1911-12 obtained from the Accountant-General have not as yet been finally verified and are, therefore, liable to subsequent adjustment. The total receipts under the Stamp and Court-fees Acts amounted to Rs. 2,01,08,883 against Rs. 1,93,87,017 in the preceding year, showing an increase of Rs. 7,21,866. This increase occurred both in judicial and non-judicial stamps. The total charges during the year amounted to Rs. 5,22,025 against Rs. 5,12.643 in the previous year, the increase over the figures of 1910-11 occurring under the head "Discount and establishment for sale of stamps."

3. The sale-proceeds from court-fee stamps, excluding stamps for copies, rose from Rs. 1,28.25,350 to Rs. 1,32,00.023, an increase of Rs. 3,74,673. The greater portion of the increase was contributed by the districts of Bakarganj (Rs. '69,565), Calcutta (Rs. 53.886), Mymensingh (Rs. 47,480), Jalpaiguri (Rs. 44,857), Khulna (Rs. 33,663), Dacca (Rs. 32,770), and Faridpur (Rs. 26,358). The larger revenue in Calcutta is attributed to the receipt of heavy court-fees on account of duty paid on probates and letters of administration. The increase in the several districts of the Dacca Division, aggregating Rs. 1,76,173, is said to be due partly to the normal increase of litigation arising from increase of population and other causes, and partly to the effect of the settlement operations which have but recently been concluded in Bakarganj district and are in progress in the other three districts of the Dacca Division. The increase in Jalpaiguri is attributed to the sale of court-fee stamps, amounting to Rs. 25,940, to the Maharaja of Cooch Behar for a succession certificate. Beyond this no special reasons have been given for the increase of Rs. 1,21,078 obtained from the districts of the Rajshahi Division. The largest decrease (Rs. 24,507) occurred in the district of Hooghly, and is ascribed to the fact that probates, letters of administration, etc., were granted in respect of estates of small value and also to the transfer of suits between Rs. 1,000 and Rs. 2,000 in value arising within the district of Howrah to a Munsif in that district. A decrease of Rs. 18.752 in the sale of court-fees in the district of Noakhali has not been explained.

4. The receipts from the sale of non-judicial stamps increased by Rs. 3,19,020. Of this as much as Rs. 1,49,365 was obtained in Calcutta alone, and is ascribed to a general improvement in trade. The other districts which show the greater increase are Tippera (Rs. 32,739), Chittagong (Rs. 28,160), Bakarganj (Rs. 25.584), Noakhali (Rs. 21,228) and Faridpur (Rs. 19,539). These large increases are not attributed to any specific cause by the local officers, except that in the district of Chittagong an increase from Rs. 5,059 to Rs. 29,126 in the sale of adhesive stamps is said to be due to the establishment of a large number of Insurance Companies during the year. The large decrease under head "Miscellaneous receipts" is mainly due to the fact that fewer loans were floated by the Corporation of Calcutta and the Calcutta Port Trust, resulting in a decrease in the amount of composition duty paid by them.

5. The number of vendors who held licenses to sell stamps during the year was 4,845, *i.e.*, 153 less than in the previous year. Owing to a comment by the Board on the apparently excessive number of vendors in the Midnapore district, an enquiry was made in 1910-11 which resulted in the number being reduced by 41. During the year under review the number there was further reduced by 139. The local officers have not explained the abnormal increase of 51 in the number of vendors in Noakhali, nor the decrease of 35 and 27 vendors in the Burdwan and Dacca districts, respectively. The discount allowed to vendors rose by Rs. 13,132 in consequence of the rise in the sale of judicial and non-judicial stamps.

6. The total number of cases in which deficient duty and penalty were levied by the courts under section 35 of Act II of 1899 during the year decreased by 208, and the amount of duty and penalty realized by Rs. 1.064. The total number of cases decided by revenue courts under sections 32, 37, 40 and 41 of the Act rose from 2,980 to 3,195, but the amount

of duty and penalty realized decreased by Rs. 7,965. In Calcutta the average amount of duty and penalty realized in each case was more than Rs. 80 ; in other districts it was generally less than Rs. 10. This noticeable variation is probably due to the fact that in the mufassal districts the majority of cases in which deficit duty is paid are those of deeds executed for small amounts by persons ignorant of the provisions of the law and unable to obtain legal advice. Revenue officers should, however, take care that the penalty imposed is commensurate with the offence.

7. The number of cases instituted for the infringement of the provisions of the Stamp Act was 1,812, in which 1,898 persons were brought to trial and 1,866 convicted as against 1,643 cases and 1,636 persons convicted in the preceding year. The fines imposed, including composition money, aggregated Rs. 7,279 as against Rs. 5,541 in 1910-11. The amount of rewards paid to informers (which were confined only to Calcutta) was Rs. 779 less than in the previous year. This is ascribed to the fact that a smaller number of cases was compounded under section 70 (2) of the Stamp Act.

8. Enquiries were made in 75·5 per cent. of the cases of valuation of estates for the issue of probates or letters of administration reported during the year. The corresponding percentage of the previous year was 74·8. The proportion borne by the deficit court-fees realized to the amount originally paid was 5·4 as compared with 6·5 in the previous year.

Damage to winter rice and jute by insects is reported from places in the Presidency Division. Harvesting of autumn rice and jute is going on. The average price of common rice was generally stationary and in a few cases slightly lower or higher than in the previous week. Cattle-disease is reported from six districts.

No. 1674-B.—The following Statutes, dated the 9th March 1912, are published for general information :

GEORGE, R. & I.

GEORGE THE FIFTH, by the Grace of God, of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, King, Defender of the Faith, Emperor of India, to all to whom these presents shall come. Greeting :

Whereas, by Warrants under His late Majesty's Royal Sign Manual, dated the Eighth day of August in the year of our Lord one thousand nine hundred and two and the second year of His Reign, the twenty-ninth day of November in the year of our Lord one thousand nine hundred and six and the sixth year of His Reign, the twenty-seventh day of May one thousand

nine hundred and eight, and the eighth year of His Reign, and the seventeenth day of June one thousand nine hundred and nine in the ninth year of His Reign, His late Majesty, being desirous of recognising more fully than had theretofore been possible the faithful and meritorious services rendered to Him by Members of the Civil Services of the various parts of His Empire, did, for Himself, His Heirs and Successors institute and create a new Civil Order of Distinction—to be designated the Imperial Service Order—and He was graciously pleased to Make, Ordain, and Establish Rules and Ordinances for the government of the same:

And whereas We are minded to make certain amendments and additions to the Statutes of the Order.

Now, therefore, in pursuance and in the exercise of the power vested in Us by the aforesaid Statutes, and in order to enable Us to carry this Our Will and Pleasure into effect, We do hereby abrogate the aforesaid Statutes of the eighth day of August one thousand nine hundred and two, the twenty-ninth day of November one thousand nine hundred and six, the twenty-seventh day of May one thousand nine hundred and eight and the seventeenth day of June one thousand nine hundred and nine and the same are abrogated accordingly, but without prejudice to any thing done thereunder; and in lieu thereof, We do by these Presents Make, Ordain, and Establish the following Statutes and Ordinances:

Firstly.—It is ordained that this Order shall henceforth be styled and designated "The Imperial Service Order."

Secondly.—It is ordained that the Order shall consist of the Sovereign, the Prince of Wales, and such Companions as We, Our Heirs, or Successors, shall appoint.

Thirdly.—It is ordained that We, Our Heirs and Successors, Kings and Queens Regnant of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, Emperors and Empresses of India, are and for ever shall be Sovereigns of this Order.

Fourthly.—It is ordained that only the Members of the administrative or clerical branches of Our Civil Services shall be eligible for the distinction of Companions of this Order.

Fifthly.—It is ordained that the number of Companions of the Order shall not exceed seven hundred, of whom two hundred and fifty shall belong to Our Home Civil Service, two hundred to Our Civil Services in India, including the Staff of Our Secretary of State for India (one hundred appointments being reserved for Europeans and one hundred for natives of India), and two hundred and fifty to the Civil Services of Our Dominions beyond the Seas, and Countries under Our Protection, including the Staff of the Crown Agents for the Colonies.

Sixthly.—It is ordained that no person shall be eligible to be a Companion of the Order, whose name has not been laid before Us, Our Heirs or Successors, by one of Our or Their Principal Secretaries of State, and who has not at the time of his or her nomination rendered at least twenty-five years' meritorious service in Our said Civil Services: Provided that in the Indian Empire the minimum period of service in the case of Europeans shall be twenty years, and that in any part of Our Dominions beyond the Seas, or any Country under Our Protection, which under the Pension Acts or Regulations applying thereto, is recognised as unhealthy, the minimum of service shall be sixteen years: Provided also that it shall be competent to Us, Our Heirs or Successors, to appoint specially to the Order persons, who not having completed the aforesaid periods of service, have rendered such eminently meritorious service as to qualify them, in Our opinion, to become recipients of this distinction.

Seventhly.—It is ordained that when We, Our Heirs, and Successors, shall be pleased to appoint any person to be a Companion of the Order, such appointment shall be made by Warrant under Our Sign Manual and countersigned by one of Our Principal Secretaries of State.

Eighthly.—It is ordained that the decoration to be worn by Companions of the Order shall be: for men, a Badge or Medallion of gold or enamel, bearing Our Imperial and Royal Cypher, and the words "For Faithful Service," both to be executed in dark blue enamel on a plaque or shield of gold, surrounded by a seven-pointed star of silver, surmounted by the

Imperial Crown; and for women, a Badge or Medallion in all respects similar to the Badge or Medallion for men, save that the plaque or shield of gold shall be surrounded by a wreath of laurel in silver instead of a star surmounted by the Imperial Crown.

Ninthly.—It is ordained that the decoration shall be worn by male Companions on the left breast, suspended by a ribbon of one inch and-a-half in width, consisting of a strip of blue between two strips of crimson of equal size, and by female Companions on the left shoulder, suspended by a ribbon of the same colour and width, fashioned into a bow.

Tenthly.—It is ordained that the names of those upon whom We are pleased to confer the decoration shall be published in the *London Gazette.*

Eleventhly.—It is ordained that Companions of the Order shall have the privilege of adding the Letters "I. S. O." after their names.

Twelfthly.—It is ordained that members of any Order of Knighthood shall, if otherwise qualified, be eligible to become Companions of this Order, and that male Companions of this Order shall in no way be debarred from becoming thereafter Members of any Order of Knighthood for which their services may qualify them.

Thirteenthly.—It is ordained that the Imperial Service Order shall rank next to, and immediately after, Our Distinguished Service Order, and before the Fifth Class of Our Royal Victorian Order, and the Companions thereof shall, in all places and assemblies whatsoever, have place and precedency next to, and immediately after, the Companions of the Distinguished Service Order, and shall rank among themselves according to the dates of their respective nominations.

Fourteenthly.—It is ordained that it shall be competent to Us, Our Heirs and Successors, by a Warrant under Our Royal Sign Manual, to cancel and annul the appointment of any Companion of this Order, and that thereupon his name in the Register shall be erased; but that it shall be competent for the Sovereign to restore to the Order any person whose appointment may have been so cancelled and annulled when circumstances render it just and expedient so to do.

Fifteenthly.—It is ordained that those Members of Our Civil Services, who are not eligible for appointment as Companions of this Order may, on retirement from Our said Services, after not less than twenty-five years of meritorious service, or in the case of Europeans serving in the Indian Empire, after not less than twenty years of such service, or in the case of service in any part of Our Dominions beyond the Seas, or any Country under Our Protection which, under the Pension Acts or Regulations applying thereto, is recognized as unhealthy, after not less than sixteen years of such service, be awarded a Medal to be designated "The Imperial Service Medal": Provided that no such Medal shall be granted except on the recommendation of one of Our Principal Secretaries of State: Provided also that it shall be competent to Us, Our Heirs or Successors, to confer the Medal upon not more than five Members of Our Civil Services in each year, who have retired after less than twenty-five years' service, should the special circumstances in Our or Their opinion justify the grant.

Sixteenthly.—It is ordained that the Imperial Service Medal for men and for women shall in all respects be similar to the badge of the Imperial Service Order for men and women respectively, save that the plaque shall be of silver, instead of gold, and the star or wreath of laurel shall be of bronze instead of silver, and it is ordained that the Imperial Service Medal shall be worn in a similar manner to that prescribed for the Imperial Service Order, and that these Medals shall bear on the reverse the name of the recipient.

Seventeenthly.—It is ordained that the names of those persons to whom the Imperial Service Medal shall be granted shall be duly published in the *London Gazette.*

Eighteenthly.—It is ordained that it shall be competent for Us, Our Heirs and Successors, by a Warrant under Our Royal Sign Manual, to cancel and annul the award of any Imperial Service Medal, and that thereupon the name of the recipient in the Register shall be erased; but it shall be competent for the Sovereign to restore the Medal to any person whose name may have been so erased, when circumstances render it just and expedient so to do. And every person to whom the said Medal is awarded shall, before receiving the same enter into an agreement to return the Medal, if his name shall be erased as aforesaid.

Nineteenthly.—It is ordained that an Officer shall be appointed to the Order who shall be styled "Secretary and Registrar," and who shall be *ex-officio* a Companion of the Order.

Twentiethly.—It is ordained that the Secretary and Registrar of this Order shall be appointed by Us, Our Heirs and Successors, and shall have the custody of the Archives of the Order, which shall be kept in the Office of Our Secretary of State for the Home Department. He shall attend the service of the Order and shall execute such directions as he may receive from Our Principal Secretaries of State.

Lastly.—We reserve to Ourselves, Our Heirs and Successors, full powers of annulling, altering, abrogating, augmenting, interpreting, or dispensing with these Regulations, or any part thereof, by a notification under the Sign Manual of the Sovereign of the Order.

Given at Our Court at Saint James's this ninth day of March, one thousand nine hundred and twelve, in the second year of Our Reign.

NOTIFICATION.

Simla, the 2nd August, 1912.

No. 38.—The Governor-General has been pleased, under Rule 23 of the Rules for the conduct of the Legislative Business of the Council of the Governor-General, to order the publication in the *Gazette of India* in English of the following Bills, together with the Statements of Objects and Reasons relating thereto, and the Bills and the Statements of Objects and Reasons are accordingly hereby published for general information :—

No. 3.

A Bill further to amend the Presidency Small Cause Courts Act, 1882.

WHEREAS it is expedient further to amend the Presidency Small Cause Courts Act, 1882 ; It is hereby enacted as follows :

of 1882.

1. This Act may be called the Presidency Small Cause Courts (Amendment) Act, 1912.

Short title.

2. In section 41 of the Presidency Small Cause Courts Act, 1882, for the word "one" the word "two" shall be substituted.

XV of 1882.

Amendment of section 41, Act XV, 1882.

STATEMENT OF OBJECTS AND REASONS.

The jurisdiction of the Presidency Small Cause Courts in dealing with applications under section 41 of the Presidency small Cause Courts Act, 1882, is limited to cases in which the annual value at a rack-rent does not exceed Rs. 1,000. In view of the marked increase in the annual value of house property in Presidency-towns of recent years, it is considered desirable to raise this limit and empower Small Cause Courts to take action under this section in all cases in which the annual rent does not exceed Rs. 2,000. The High Courts concerned approve of the proposed amendment.

The 11th June, 1912.

R. H. CRADDOCK.

No. 4.

A Bill to amend the Indian Extradition Act, 1903.

WHEREAS it is expedient to amend the Indian XV of 1903. Extradition Act, 1903; It is hereby enacted as follows:

1. This Act may be called the Indian Extradition (Amendment) Act, 1912.

Short title.

2. (*1*) In sub-section (*1*) of section 7 of the Amendment of section 7, Act XV, 1903. Indian Extradition Act, XV of 1903. 1903, after the words "such person is believed to be," the words "or if such person is believed to be in any Presidency-town to the Chief Presidency Magistrate therefor" shall be inserted.

(*2*) In sub-section (*3*) of the same section of the said Act, after the words "District Magistrate," the words "or Chief Presidency Magistrate" shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

Under section 7 of the Indian Extradition Act, 1903 (Act XV of 1903), a District Magistrate is empowered to receive and execute warrants issued by Political Agents in certain cases. Doubts have been expressed as to whether under this section there is provision for the execution of such warrants in Presidency-towns. In order to remove these doubts and to make definite provision for such cases, it is proposed to empower the Chief Presidency Magistrate to execute warrants in Presidency-towns.

The 30th July, 1912. R. H. CRADDOCK.

No. 5.

A Bill further to amend the Indian Divorce Act.

WHEREAS it is expedient further to amend the IV of 1869. Indian Divorce Act; It is hereby enacted as follows:

1. This Act may be called the Indian Divorce (Amendment) Act, 1912.

Short title.

2. To section 7 of the Indian Divorce Act the following proviso shall be added, namely:

Addition to section 7, Act IV of 1869.

"Provided that nothing in this section shall deprive the said Courts of jurisdiction in a case where the parties to a marriage professed the Christian religion at the time of the occurrence of the facts on which the claim to relief is founded."

STATEMENT OF OBJECTS AND REASONS.

The South Indian Missionary Association submitted a memorial praying that the provisions of the Indian Divorce Act, 1869 (IV of 1869), might be declared to be applicable to the marriages of Christian converts solemnized by Non-Christian rites before their conversion, provided that the causes for divorce had arisen subsequent to conversion. The object of this memorial was to avoid the decision of the Madras High Court in Thapita Peter *v.* Thapita Lakshmi, I. L. R., 17 Madras, 235 which, relying on section 7 of the Act, held that the marriages contemplated by it were those founded on the Christian principle of a union of one man with one woman to the exclusion of all others, and consequently that it did not apply to Hindu or Non-Monogamous marriages. The Calcutta High Court, however, in Gobardhan Das *v.* Jasadamoni Dassi, I. L. R., 18 Calcutta, 252 affirmed the contrary view in a precisely similar case, and granted the desired relief on the ground that a person professing Christianity at the time of presenting his petition was entitled to relief under the Act. In view of the conflict between the two decisions, it is thought desirable that the law on the point should be made clear, and it is accordingly proposed to amend section 7 of the Act so as to make it applicable to Christian converts, provided that both parties are Christians at the time of the occurrence of the facts on which the claim to relief is founded.

HARCOURT BUTLER.

The 18th March, 1912.

No. 6.

A Bill to amend the Local Authorities (Emergency) Loans Act, 1897.

WHEREAS it is expedient to amend the Local XII of 1897. Authorities (Emergency) Loans Act, 1897; It is hereby enacted as follows:

1. This Act may be called the Local Authorities (Emergency) Loans (Amendment) Act, 1912.

Short title.

2. In section 2, sub-section (1), of the Local Authorities (Emergency) Loans Act, 1897, for the words "Governor General in Council", the words "Local Government" shall be substituted.

XII of 1897. Amendment of section 2, sub-section (1), Act XII, 1897.

3. (*1*) In section 3, sub-section 1, of the said Act, for the words "terms and conditions as the Governor General in Council may think fit to impose", the following words shall be substituted, namely:

Amendment of section 3, Act XII, 1897.

"general or special orders as the Governor General in Council may make in this behalf".

(*2*) In sub-section 2, of the same section, for the words "the Governor General in Council may by general or special order," the following words shall be substituted, namely:

"such general or special orders may".

4. The following proviso shall be added to section 4 of the said Act:

Addition of proviso to section 4, Act XII, 1897.

"Provided that, nothing in section 7 of the Local Authorities Loan Act, 1879, shall be deemed to require the sanction of the Governor General in Council to any loan under this Act."

STATEMENT OF OBJECTS AND REASONS.

The Local Authorities (Emergency) Loans Act, 1897 (XII of 1897), enables local authorities to borrow money for certain purposes with the sanction of the Governor General in Council. The Government of India consider the power of sanctioning such loans may safely be delegated to Local Governments. This proposal was made by the Decentralisation Commission. The object of this Bill is to effect the delegation proposed by an amendment of section 2, sub-section (1), of the Act. It is also proposed to amend section 3 so as to enable the Government of India to issue general or special orders subject to which Local Governments may sanction the borrowing of money under section 2, sub-section (1), without previous reference to the Government of India.

The amendment of section 4 is purely a consequential amendment.

RESOLUTION ON THE ANNUAL REPORT ON THE POLICE ADMINISTRATION OF THE TOWN OF CALCUTTA AND THE SUBURBS FOR THE YEAR 1911.

RESOLUTION—No. 2953P.D.

DATED DACCA, THE 5TH AUGUST 1912.

READ—

The Annual Report on the Police Administration of the Town of Calcutta and the Suburbs for the year 1911

Read also—

The reports for the two previous years and the orders of Government recorded thereon.

SIR F. L. HALLIDAY, C.I.E., M.V.O., held charge of the office of Commissioner of Police throughout the year. There were no administrative

changes of any particular importance, and Superintendents continued to be employed in charge of two of the divisions of the town. Steps have recently been taken to divide the Deputy Commissioner's charges into circles to each of which an Inspector will be appointed. The system is analogous to that in force in the Bengal Police and will result in the Deputy Commissioner having more time for general supervision and the performance of administrative duties. The Circle Inspectors will devote themselves mainly to the supervision of criminal investigations or of action for the prevention or suppression of crime.

The extension of the new beat system to the Northern Division of the Suburbs was completed during the year.

2. There was an increase in the number of departmental punishments for the most part amongst the rank of constables. It appears to have been due mainly to the exercise of better check and supervision over the work of beat constables which was provided by the special deputation of seven European sergeants to look after the men employed on this duty. His Excellency in Council regrets to notice that the number of resignations, though slightly less than in the previous year, was still very large and that the position in respect of recruitment is far from satisfactory. It might help to make service in the Police force more attractive if a small bonus were paid to recruits on entertainment as is done in the Bengal Police. The Governor in Council will be prepared to consider a proposal to this end if submitted by the Commissioner of Police. Better arrangements are also needed for the accommodation and training of recruits. Hitherto recruits have been sent for training to the constables' schools at Nathnagar in Bhagalpur district. The arrangement has not worked very satisfactorily and is no longer practicable since the school has ceased to belong to this Presidency. The Governor in Council is inclined to think that better results might be obtained in respect of both recruitment and training if a separate and self-contained recruiting depôt and training school for the Calcutta Police were established in the neighbourhood of Calcutta. The Commissioner of Police will be asked to submit proposals accordingly.

3. The number of cases both cognizable and non-cognizable was larger than in 1910. In the case of the former the increase was noticeable—the total number of true cases exceeding that of the previous year by 15,468. His Excellency in Council is glad to see that the increase is due largely to greater activity in dealing with cases of obstruction of the public thoroughfares to which special attention was directed in the Government Resolution on last year's report. It is clear that the police have been making good use of the powers conferred on them by the Calcutta and Suburban Police Amendment Act III of 1910, but it is impossible to say without a more prolonged trial whether these powers will prove sufficient to check the abuses which they are designed to meet. The Governor in Council regrets that the Commissioner of Police has to complain that Magistrates do not award adequate sentences for offences of this nature, and their attention will be drawn to the desirability of passing sentences which are likely to prove deterrent.

4. As against the further increase in the number of cases of ordinary theft it is satisfactory to note that there was a large increase in the number of convictions for this offence and for the offence of receiving stolen property. Separate figures for the divisions are not given, and it is therefore not possible to say with accuracy what effect the introduction of the beat system has had upon crime against property. It is, however, disquieting to find that the increase in burglaries comes wholly from the Suburbs, where the beat system was extended into a third division during the year. The Governor in Council trusts that the control of this form of crime will continue to receive the Commissioner's close and sustained attention.

5. The report of the Commissioner of Police again calls attention to the inadequacy of the accommodation available in the Calcutta Police Court buildings, and with this question is bound up the necessity of finding room for the expansion of the police head-quarters at Lal Bazar. Proposals for the extension of the existing buildings had been sanctioned during the year, but the site is already congested, and this expedient was only approved

because no suitable buildings could be found elsewhere. The transfer of the head-quarters of the Government of India from Calcutta has now removed this difficulty, and Government is considering a proposal for the removal of the Police Courts to No. 3, Charnock Place, at present occupied by the Commissioner of the Presidency Division and other officers. This building His Excellency in Council is inclined to think would prove very suitable for the Presidency Magistrates, and the present Courts will provide the Commissioner of Police with a substantial portion of the much needed extra accommodation for his head-quarters. The Commissioner's bill for house-rent is little short of one and a half lakhs of rupees per annum, and it is hoped that the new arrangements will lead to a substantial reduction in this charge. The additional space which will be available at No. 3, Charnock Place, will allow of the provision of suitable court rooms for the use of Honorary Magistrates who, in the absence of sufficient and suitable accommodation, cannot furnish the relief to Stipendiary Magistrates which they are able and anxious to give. Even in existing conditions, however, many of the Honorary Magistrates have rendered much assistance, and His Excellency in Council takes this opportunity of acknowledging the value of their services.

6. The Governor in Council is glad to notice that effective measures have been taken during the year to secure juvenile offenders before and after conviction from contact with habitual criminals. One hundred and four first offenders were discharged under section 562, Criminal Procedure Code, and of the juveniles convicted, 38 were sent to a reformatory school as against 26 in the previous year; while 16 were discharged after admission, 12 bound down to be of good behaviour, 1 fined, 271 whipped and 11 only sentenced to imprisonment in the Juvenile Jail. It can be said with justice that the action of the police and courts now proceeds on lines which are in reasonable accord with modern ideas as to the treatment and reformation of juvenile offenders.

7. There has been a satisfactory improvement in the efficiency of the Fire Brigade in consequence of its reorganization which was based on the recommendation of the Committee which sat during the year. A European Superintendent has been obtained from England since the close of the year, and he will submit his recommendations for the permanent needs of the Brigade when he has gained some experience of local conditions. The use of motor engines has added greatly to the utility of the Brigade in dealing promptly with outbreaks, and there was a most satisfactory decrease in the amount of property destroyed by fire. The question of the future accommodation of the Brigade to which the Commissioner of Police refers is an important one, and will require serious consideration. The proposal to construct a new central fire station on modern lines would however involve considerable expenditure and there is also the difficulty of finding a suitable site.

8. The Governor in Council notes with pleasure the commendations of the Commissioner on the officers who have done good work during the year. Great credit is due both to the Calcutta Police and to the officers and men of the Bengal Police who were drafted into Calcutta for the manner in which they performed the onerous and anxious duties thrown upon them by the visit of their Imperial Majesties to Calcutta at the close of the year. The good work of the force as a whole was graciously acknowledged by His Imperial Majesty, and in recognition of special services rendered, Sir F. Halliday, Commissioner, was honoured with a Knighthood. Mr. F. C. T. Halliday and Mr. C. A. Tegart, Deputy Commissioners, were appointed to the Royal Victorian Order (5th class), while the Royal Victorian Medal was bestowed on Superintendents Aldridge and Eastwood, Inspectors Edwards, Farrow and Creffield, Chief Engineer Phillips, Sergeant Sharpe and the officiating Head Assistant of the Commissioner's office (Mr. A. DeSouza). His Imperial Majesty was also pleased to add a bar to the Royal Victorian Medal awarded to Inspector Hanson in 1906. The Governor in Council congratulates these officers on the distinctions which they received. The special acknowledgments of His Excellency in Council are due to Sir F. Halliday for his able and successful administration of the Calcutta Police throughout the year.

ORDER.—Ordered that a copy of the Resolution be forwarded to the Commissioner of Police, Calcutta, for information and guidance.

Ordered also that a copy of the Resolution be forwarded to the Chief Presidency Magistrate, Calcutta, the Commissioner of the Presidency Division, the Chairman of the Corporation of Calcutta, and the Municipal Department of this Government, for information.

Ordered also that a copy of the Resolution be published in the *Calcutta Gazette*.

THE MYSORE DASARA INDUSTRIAL AND AGRICULTURAL EXHIBITION, 1912.

NOTIFICATION.

No. 4178.—The 9th August 1912.—The following Prospectus relating to the Industrial and Agricultural Exhibition to be held at Mysore in October 1912 is published for general information.

J. H. KERR,
Secy. to the Govt. of Bengal.

PROSPECTUS OF THE DASARA INDUSTRIAL AND AGRICULTURAL EXHIBITION OF 1912.

Introductory.—With the sanction of the Government of His Highness the Maharaja of Mysore, the Committee issue the following Prospectus in connection with the Exhibition of 1912.

2. *Opening of the Exhibition.*—This year the Exhibition opens on the 14th of October and will continue till the 28th of October, both days inclusive. The cattle (local) and poultry shows will begin on Monday, the 21st of October, and close on Thursday, the 24th.

3. *Object of the Exhibition.*—The primary aim of the Committee is to impart to the Exhibition an educative character and to bring together articles, machinery and processes, the use of which it is desirable to bring to the notice of the raiyat, artizan and the manufacturer by actual demonstration. But as the exhibition of a single specimen may not afford full information and may not be sufficiently attractive to the visiting public, articles intended for sale will also be admitted.

Sale rooms and sale of exhibits.—Articles on a larger scale sent merely for sale will have to be kept in separate stalls and in charge of the exhibitors or their agents. There is no objection to the sale of actual exhibits; but they will not be allowed to be removed from the Exhibition grounds till the termination of the show. Articles admitted for purposes of sale alone may be removed after purchase. No article will be allowed to leave the Exhibition grounds without a gate pass, which will be issued by the Cash Accountant on production of a cash-bill or sale memo., as the case may be.

Those who desire special facilities for the sale of articles or demonstration of processes are requested to place themselves in communication with the Secretary to the Exhibition Committee at least two weeks before the opening of the Exhibition.

4. *Horticultural Show.*—The horticultural show, comprising Class II, Group 2, items 1 to 7, mentioned in the first section of the Prospectus, will be held on the 21st of October 1912 and kept open till the following day.

5. *Lectures.*—Written notes on subjects connected with agriculture and industry will be thankfully received and printed in book forms for distribution at the Exhibition.

Demonstrations.—Arrangements will be made for holding a competition on the Exhibition grounds in Ploughing, Weaving and Pottery work, Carving and Metal work. The exact time of demonstrations will be announced later on by hand-bills and notices: unless there be at least three competitors for each event, the Committee have full power to withhold such competitions.

6. *Donations.*—The Committee will thankfully accept donations for awarding prizes or medals from individuals or associations desiring to give an impetus to any special branch of agriculture or industry.

7. *Classification of Exhibits.*—The classification of exhibits will be according to the prize list subjoined to the Prospectus, and entries in several sections should be made in the application forms prescribed.

8. *Open to all India.*—The Committee invite exhibits from all the districts of the State as well as from outside. They also appeal to the various agricultural departments and associations in other parts of India, Burma and Ceylon to help them with exhibits and suggestions.

9. *Judges.*—Leading raiyats and non-official gentlemen will be invited to assist the Committee in judging the exhibits.

10. *Admission fees for visitors.*—An admission fee of annas two per head will be levied each time a person enters the Exhibition buildings. Season tickets will be issued at Re. 1 per head. These are not transferable, but books of eight single tickets may be had also at Re. 1 per book. Return railway season tickets between Bangalore and Mysore at a reduced rate, which will also admit the holder to the Exhibition for the whole period, will be arranged for.

RULES AND REGULATIONS.

Noxious Articles.—Explosives or any substance noxious or dangerous will not be admitted by the Committee.

2. *Particulars regarding the Exhibits.*—Intending exhibitors are requested to send to the Secretary to the Exhibition Committee particulars of exhibits they intend to forward and the amount of space which their exhibits may take up in the necessary entry form appended to this Prospectus. Forms may also be obtained from the District, Divisional and Taluk Offices or from the Secretary to the Committee; plain paper of foolscap size may also be used provided all the headings in the form are properly copied and filled up and separate sheets should be used for each section.

3. *Application from Exhibitors.*—Applications should reach the Secretary not later than 15th of September 1912. Each application should contain a post-card with the full address of the exhibitor and the receipt of the application will be communicated by returning the card duly signed.

4. *Lists from Taluks.*—Deputy Commissioners of districts with the District Committee, Subdivisional Officers and Amildars of taluks are requested to convene, as early as possible, a meeting of the leading artizans, raiyats and merchants residing within their respective charges, to explain to them fully the object and the scope of the Exhibition, to carefully acquaint them with the rules and regulations, drawing particular attention to such paragraphs as 2, 3. 10, etc., to send to this office for information copies of proceedings of District and Taluk Committee Meetings, to distribute to them forms of applications, to have them filled up by intending exhibitors and to compile and forward them to the Secretary.

5. *Articles not enumerated.*—The Prospectus will show the nature of articles which can compete at the Exhibition. Articles not specially enumerated in this Prospectus may, however, be admitted by the Committee at their discretion.

6. *No fees to be charged for Exhibits.*—No fees will be charged for the admission or for space given to display exhibits.

7. *Acceptance of Exhibits.*—The Committee reserve to themselves absolute discretion as regards the acceptance or rejection of exhibits and the allotment of space covered or uncovered.

8. *Delivery of Exhibits.*—Articles intended for the Exhibition may be brought by the exhibitor or his agent or servant and delivered at the Exhibition grounds or sent by post or railway, and all taluk and district *exhibits should be sent through the Deputy Commissioners of districts so as to reach the Exhibition by the 30th of September 1912.* A consolidated list of district exhibits and exhibitors in duplicate should accompany the consignment, one of which will be checked, receipted and returned by the Secretary.

9. *Payment of Freight and Transport charges.*—No exhibits in respect of which the necessary freight or transport charges have not been paid by the exhibitor will be accepted by the Committee, nor can the money be received from the exhibitors for payment towards clearance of goods booked "To Pay."

in the case of exhibits in the agricultural section, essential particulars should be given, such as—

2. The soil on which they are grown.
3. The quantity of seed per acre.
4. The manure used.
5. Whether any irrigation is required.
6. The time required for the maturing of the crop.
7. The average yield per acre.
8. Any other interesting details regarding cultivation.

11. *Exhibits which have already won Prizes.*—Exhibits which have won prizes in the previous Mysore Exhibitions shall be precluded from competing for prizes, though there is no objection to their being accepted for purposes of show or sale.

12. *Date of delivery of the Exhibits.*—Intending exhibitors are requested to send the exhibits so as to reach Mysore on the 15th of September 1912, from which date the Committee will arrange to take charge of exhibits, *and no exhibits should arrive later than the 30th of September 1912.*

13. *Belated Exhibits.*—Articles that are not delivered at the Exhibition Hall in the time fixed may be admitted at the discretion of the Committee subsequent to the date in paragraph 12 ; but they shall not find an entry in the official hand-book if the exhibitors fail to furnish at least the accurate lists of exhibits within the prescribed time.

14. *Perishable Articles.*—Vegetables, fruits and other perishable articles may, however, be delivered at the Exhibition hall till 7 P.M. on the 20th of October 1912.

15. *Valuable Exhibits.*—All valuable exhibits must invariably be forwarded and kept under the charge of an attender.

16. *Exhibits unaccompanied by men in charge.*—Exhibitors who are unable to attend personally or send their agents in charge of exhibits other than those mentioned in the above rule may make special arrangements with the Committee for the exhibition of their goods on payment in advance, in full, of the estimated expense.

17. *Responsibility of Exhibitors.*—The reception, fitting and removal of spacious and heavy exhibits must be personally supervised in the Exhibition either by the exhibitors or their agents. In default the Exhibitor will be bound by the action the Committee may take in respect of such articles.

18. *Committee accept no responsibility.*—No responsibility for damages or loss howsoever occurring will be accepted by the Committee in respect of any exhibits.

19. *Special facilities.*—Exhibitors are requested to mention in their applications whether they wish to illustrate practically any process of manufacture or the working of any implement or machinery, and if so, to state briefly the nature of the demonstration and any special facilities they require for mounting their machinery.

The Committee will be glad to give such aid as may be possible in the shape of getting skilled or unskilled manual labour at the exhibitor's expense. The expenses for any special facilities sought for demonstrating machinery and implements should be borne by the exhibitor except where special arrangements have been made by the Committee.

20. *Weighing of Exhibits.*—The Committee entrust the work of receiving the exhibits to responsible officials. But as the goods are landed near the Exhibition grounds by special arrangements, it is not possible to weigh every consignment before taking delivery of it. So the exhibitors are requested to take every precaution in packing their exhibits and to send to the Committee, in time, *an accurate list* of exhibits sent by them. Exhibitors who wish that their consignment should be weighed at the Railway station before delivery should intimate their wish to the Secretary in time and remit in advance a special fee of one rupee on each consignment to be thus weighed.

21. *Acknowledgment of Exhibits.*—Receipt of exhibits will be acknowledged by return of the duplicate list mentioned in paragragh 10 to the exhibitors, duly signed by the Secretary. No other kind of receipt or acknowledgment shall be sent.

22. *Free Pass to Exhibitors.*—In cases in which the owners themselves are in charge of exhibits, the necessary free pass will be given. Exhibitors and such assistants, servants or other attendants as they may require for service in their stalls shall enter the Exhibition grounds through such entrance or entrances as the Committee may direct; they must wear badges, discs or hold passes issued to them before the opening of the Exhibition. All such assistants, servants or other attendants must obey the orders of the Committee and of the supervising staff appointed by them.

23. *Free admission to bonâ-fide Raiyats and Artizans.*—Raiyats and artizans unable to pay fees, belonging to the Mysore State or from outside, who produce certificates of identification signed by their respective Taluk Officers in form B appended to this Prospectus, will be admitted free.

1.	Full stall, 21′ by 10½′	15
2.	Half stall	8
3.	Quarter stall	5

No refund will be given to an exhibitor who occupies less space than that allotted and paid for, and the unoccupied space will be disposed of by the Committee in the way it deems best.

No exhibitor shall assign, transfer, sublet or part with the possession of any site or building or portion thereof allotted to him or dispose of any part or interest therein or place therein any other than his own duly approved exhibits. Any breach of this rule renders the exhibitor liable to have his exhibits removed summarily from the Exhibition and he shall not be entitled to any compensation.

Commission.—A commission of six pies in the rupee will be charged on the sales conducted in the sale rooms by the exhibitors themselves or by their agents.

25. *Exhibits for sale.*—Exhibits labelled "For sale" will be sold during the time the Exhibition lasts; but no article will be removed till the close of the Exhibition.

26. *Commission sales.*—A commission of half an anna in the rupee will be levied on all articles sold in the Exhibition stalls and grounds through the salesmen appointed by the Exhibition authorities. In this case the money will be received and remitted to the exhibitor by the Exhibition office.

27. *Opening of Stalls.*—All buildings erected by exhibitors and all sites, stalls, etc., occupied by them shall be properly cleaned and open for the public before the hour of opening each day and shall remain so during the hours of Exhibition, and if this is not done to the satisfaction of the Committee, it shall arrange to have everything done at the sole risk and expense of the exhibitor.

28. *Removal of Exhibits.*—All exhibits must be removed within a fortnight after the close of the Exhibition. Exhibits remaining after that time will be disposed of as the Committee deem fit. Perishable articles will be allowed to be removed at the option of the owners or purchasers within 24 hours after the opening of the Exhibition.

29. *Exhibits on loan.*—Works of art and articles of special merit including those of antiquarian interest will be thankfully received. Gentlemen willing to lend them are requested to place themselves in communication with the Secretary or the members of the Committee who will inform them of the acceptance of the offer and will make necessary arrangements in connection with the exhibition of articles.

30. *Exhibits belonging to Departments of Mysor Government.*—Articles or cattle exhibited by any Department of Government will not be eligible for money prizes or medals, but may be awarded certificates of merit. Certificates of merit will also be given to such of the exhibits from private gentlemen as have not been provided for in the Prospectus, if they are considered by the judges worthy of the same. (This rule does not preclude Government servants or pupils of Industrial Schools and

institutions aided by Government from competing for prizes, if the exhibits are manufactured by themselves.)

31. *Admission of Live-stock.*—The time of the year when the owners of cattle are fully engaged in the fields having been found very unsuitable for a regular Cattle Show, it has been decided to restrict the show to the fine specimens of local (Mysore district) cattle irrespective of breeds and classes.

32. *Accommodation for Cattle.*—Accommodation will be provided free of cost.

33. *Practical test.*—Working cattle may, at the owners' option, be subjected to a practical test as to their powers of draught. They must be the *bonâ-fide* property of the exhibitor.

34. *Care-taker.*—Each animal or lot competing separately must be in charge of a care-taker who will remain in charge of the exhibit and must be ready to lead it out at any time as required by the Committee.

35. *Poultry Show.*—The poultry must be in charge of the owners or an attendant who will be admitted on the show days with a free pass. Every endeavour will be made for safe accommodation. The number of each breed that a competitor may bring must be intimated to the Secretary at least four days before the opening day.

36. *Poultry Appliances.*—Prizes will also be awarded for incubators and other poultry appliances.

37. *Distribution of Awards.*—Prizes and medals will be distributed at the close of the exhibition. This year t is proposed to hold a distribution of prizes in the exhibition grounds on or about the 28th of October 1912.

38. *Number of Judges.*—The judges in each class or group will not be less than three, but no prizes will be awarded unless, in the opinion of the judges, the exhibits merit the reward. Judges cannot compete for prizes in classes or section in which they are judges, and the decision of the judges is final.

39. *Photograph of articles exhibited.*—No articles exhibited may be copied, photographed, drawn or reproduced in any manner without the special permission of the Committee. General photographs of stalls may, however, be taken with the permission of the Committee.

40. *Committee's decision final.*—The Committee have full power to make rules for the conduct of the exhibition under these regulations, and their decision is final in all cases.

41. *Acceptance of rules.*—All persons who become exhibitors shall be held to signify their assent to and acceptance of the foregoing rules and regulations and also such other rules as the Committee may hereafter issue not inconsistent with these regulations.

42. *Official hand-book.*—An official hand-book of all exhibits with the names and the addresses of the exhibitors and their agent or agents, if any, will be published about the opening day of the exhibition without any further cost to the exhibitors. It is expected that a large number of people will visit the exhibition and that many of them will probably purchase the official hand-book which will be sold at a nominal price. It will be a capital opportunity for advertisers to advertise through the medium of this hand-book. Advertisements will be received for publication in the official hand-book at the following rates:—

	Ordinary paper		Coloured paper.
	Rs.	A.	Rs.
Full page ...	20	0	25

Applications for these advertisements will be received not later than 15th September 1912, and must be accompanied by a remittance in full payment of the amount due for space applied for.

43. *Refreshments.*—No articles of refreshment, food, drink or tobacco shall be sold in or on any site, buildings or part thereof in the Exhibition without the written permission of the Committee.

44. *Committee's right.*—The Committee or any person or persons that they may appoint shall at all times have free access and right of entry to all or any part of the space, site or buildings allotted to exhibitors.

45. *Accommodation.*—Accommodation for visitors will be arranged in the sheds put up outside the Exhibition buildings, provided intending visitors apply to the Secretary at least a fortnight before the opening of the Exhibition. A rent of annas six per day, subject to a minimum charge of Rs. 3 for stays less than eight days, will be charged.

46. *Entertainments.*—The Committee will receive applications for entertainments in the Exhibition grounds. No charges will be levied for space allotted therefor.

47. *Post and Telegraph Office.*—The "Mysore Exhibition Camp" Post and Telegraph Office will be open at the Exhibition from 10th September to 30th November, and all letters, etc., addressed to the Exhibition Camp Office will be delivered earlier than those addressed to Mysore Town.

MYSORE, *the 10th May 1912.*

WOMEN'S SECTION.

NOTES ON THE LACE AND EMBROIDERY SECTION OF THE MYSORE DASARA INDUSTRIAL AND AGRICULTURAL EXHIBITION.

Owing partly to the fact that it is extremly difficult to translate into Indian Vernacular English terms used for needle-work and Embroidery, and partly because people do not readily understand the difference between an Exhibition and an ordinary shop or stall, exhibitors have not always understood what articles are required and will be rewarded, and have sent in much to former Exhibitions that even if good in itself, was debarred from getting any prize by the fact that it was not asked for in the Prospectus.

It has therefore been throught well to publish a few explanatory notes.

The room devoted to the lace and embroidery section is necessarily limited, and it is not possible in any one year to include all kinds of needle-work.

If too many specimens are received, they cannot be displayed effectively, and the crowding of embroideries, etc., only results in confusion, dust, damage to the exhibits, and prevents their being satisfactorily shown.

Therefore instead of crowding the stalls with masses of needle-work, good and bad, old and new, clean and dirty, whether included in the Syllabus or not, the Sub-Committee wish the exhibition to be confined to such specimens only as—

(1) are asked for the Syllabus,
(2) are considered by them to be really of excellent workmanship,
(3) are new and fresh.

N.B.—Valuable specimens of old embroidery, lace or needle-work should be placed apart in "A loan Exhibition."

Exhibitors would do well to note that the best materials available should be used, and that one perfect specimen of any particular work is much more likely to gain a prize than many indifferent specimens. For instance, one silk tie, perfectly knitted in good silk of a nice colour, would stand a better chance of reward than a score of ties carelessly knitted.

Moth-eaten, faded, torn or dirty work cannot be accepted.

Competitors will please note that this year dressed-pictures and bead work are not included in the syllabus; and that no bead work or miscellaneous work is to be sent for exhibition.

In judging the needle-work, its suitability for use and sale (including the possibility of its being easily cleaned or washed) will be taken into consideration, as well as beauty of design, material, colouring and workmanship.

G. SUBBUSWAMI IYER, *Secretary*.

First Forecast of the Cotton Crop of Bengal, 1912-13.

[Note.—On the average of the five years ending 1910-11, the area under cotton crop in Bengal represents some 0·3 per cent. of the total area under cotton in India.]

Explanatory.—Cotton crop is cultivated only in the districts of Bankura, Midnapore, Chittagong Hill-Tracts and in the State of Hill Tippera. This report deals with the area sown and the prospects of the early crop, and gives a brief summary of the progress of the sowings of the late crop.

Character of the season.—The early crop is chiefly grown in the district of the Chittagong Hill-tracts and in the State of Hill Tippera. In the districts of Bankura and Midnapore the areas under the crop are very limited. The weather conditions have been favourable; but owing to scarcity in Hill Tippera and in the Chittagong Hill-tracts the area cultivated is considerably less this year. The late crop is cultivated only in the districts of Bankura and Midnapore. Fair progress has been made in sowings in Midnapore. In Bankura sowings have not commenced as yet. The condition of the standing crop is reported to be fair on the whole.

Area sown.—The area sown with early cotton is reported to be 49,250 acres against 60,900 acres last year. Up to date 420 acres have been sown with the late cotton crop. The area under the crop last year was 1,800 acres.

PRELIMINARY FORECAST OF THE SUGARCANE CROP OF BENGAL, 1912-13.

NOTE.—[On the average of the five years ending 1910-11, the area under sugarcane in Bengal represents some 10·3 per cent. of the total area under sugarcane in British India.]

Character of the season.—The weather conditions have been generally favourable. Planting began in normal time, and the present condition of the crop is reported to be fairly good. Some damage was done to the crop by heavy rain in April in Dinajpur, Tippera, Noakhali and in the districts of the Dacca Division.

Area planted.—The area planted with sugarcane this year is estimated at 221,500 acres against 223,300 acres of last year. The normal area under the crop is reported to be 250,300 acres.

Outturn.—According to the estimates of the district officers the total outturn of the crop for the province works out to 89 per cent. of the normal as against 102 per cent. estimated last year.

The weather was favourable at sowing time and is rainy at present as in this time. Early rain encouraged the cultivators, but heavy showers of rain caused slight damage to crops. Hence the outturn is expected to be better than last year though below the normal. The decrease in the area is due to the damage caused by flood last year and to the fact that other crops are found to give better returns for the capital and labour employed which made the cultivators less forward in growing this crop.

Forecast of the Summer Til Crop of Eastern Bengal in 1912.

[Note.—On the average of the five years ending 1910-11 the area under *til* in Bengal represents some 5·9 per cent. of the total area under *til* in British India.]

Explanatory.—Under the late Eastern Bengal Government orders which are still in force two forecasts are annually published for the *til* crop in the Eastern Bengal districts. This forecast deals with the *til* crop grown between the period March-September.

Character of the season.—Scanty rainfall in the beginning of March and subsequent heavy rain affected the growth of the crop. Slight damage was also done to the crop by floods in the Dacca Division.

Acreage.—District Officers' estimates indicate a total sowing of 162,200 acres, which is 5 per cent. less than last year. The decrease in the area sown is mainly due to want of rain at sowing time and partly to scarcity in the Chittagong Hill-tracts.

Outturn.—The average outturn from District Officers' estimates works out to 79 per cent. of the normal against the same estimate last year.

Taking the normal yield per acre to be 4 cwts. the estimated total outturn is 25,600 tons against 27,000 tons last year, or a decrease of about 5 per cent.

Director of Agriculture, Bengal.

NOTIFICATION.

No. 1939Medl.—The 19th August 1912.—Extracts (paragraphs 1 to 19) from the Annual Report on the Government Cinchona Plantations and Factory in Bengal for the year 1911-12 are published for general information.

H. L. STEPHENSON,
Secretary to the Govt. of Bengal.

FIFTIETH ANNUAL REPORT OF THE GOVERNMENT CINCHONA PLANTATIONS AND FACTORY IN BENGAL FOR THE YEAR 1911-12.

1. **Weather.**—The year was marked by a prolonged rainy season and by an excessive precipitation. On Mungpoo the fall was 141·6 inches or 18·48 inches above the average. The fall on Munsong was 109·28 or 17·84 inches above the average and the heaviest yet recorded for that plantation.

2. **Plantations and crop.** (*a*) **Mungpoo.**—The long continued and excessive rainfall was unfavourable to the health of the young timber and fuel trees planted out during the year, so that about 25 per cent. of them

succumbed while the survivors scarcely more than held their ground. The latter are now however promising well, and the vacancies will be filled up from the large stock of young plants in the nurseries. During the year 300 acres were planted with such species as have been mentioned in previous reports. In all 1,318 acres have been re-afforested since 1906. In order to gain an indication of the possible effects of re-afforestation on Cinchona cultivation hereafter, two areas of 25 acres each—that had been under secondary forest for twenty years—were planted during the year, one with *C. Ledgeriana* and the other with Hybrid No. 2 from seed of trees of 8 per cent. quinine contents. The results will be noticed in future reports. There are now 510 acres under Cinchona on Mungpoo, but with the exception of the younger blocks the area generally has a poor appearance. There were at the end of March 1912 on Mungpoo 1,205,531 Cinchona plants, showing a decrease of 15,004 during 1911-12. During the year 126,604 trees were cut out, yielding 137,900 lbs. of bark or an average of 1·08 lb. per tree. Details are in Appendix A (1).* The plantation maps have been brought up to date by Messrs. Russell and Cousins to show the areas under Cinchona, timber and fuel trees. The stock of Ipecacuanha plants was increased by 2,000 cuttings, while 500 were distributed to Johore and Singappre.

(*b*) **Munsong.**—On Munsong 179 acres were planted with Cinchona, of which 15·5 acres with Hybrid No. 2 on Munsong division, 23·5 acres with *C. officinalis* on Kashyem division, and 140 acres with *C. Ledgeriana*, being 90 acres on Kashyem and 50 acres on Burmiak division. The total area under Cinchona on Munsong plantation now amounts to 1,048 acres, being 948 acres of *C. Ledgeriana*, 58 acres of *C. officinalis*, 25 acres of *C. Succirubra* and 17 acres of Hybrid No. 2. The number of Cinchona plants on the plantation at the end of March 1912 was 1,513,316. The number of trees planted out was 243,327, and cut out 54,293. The increase in plants during the year was 189,034. The trees (54,293) cut out were almost exclusively of "thinnings" from the younger blocks and yielded 161,480 lbs. of bark or almost 3 lbs. of bark per tree. In order to gain a rough idea of the probable future yield of Munsong, 27 trees were chosen from the oldest block on the plantation, and their bark collected. The 27 trees yielded 324 lbs. of dry bark or an average of 12 lbs. per tree. The stem bark yielded 5·25, the root 4·92 and the branch 2·89 per cent. of quinine sulphate, the average being 4·67 per cent.

(*c*) **Plantations as a whole.**—The grand total of Cinchona plants of all sorts on both plantations at the end of March 1912 was 2,718,847, showing an increase of 174,030 over the total of last year. The annual though yearly lessening decreases that have been mentioned in the reports for the last few years have now disappeared. The dry bark harvest from both plantations was 299,380 lbs., being 201,520 lbs. less than the previous year's yield, as it was considered advisable to purchase bark while rates were low and reserve the plantation bark on the living trees against a probable rise in the price of market bark, which rise to the extent of over 30 per cent., has in fact since taken place. Details are given in Appendices A (1) and A (2).*

3. **Factory and outturn.**—The quantity of bark used in the factory was 853,638 lbs. 15 oz., being 58,113 lbs. 1 oz. less than during 1910-11. The yield of quinine sulphate amounted to 40,378¾ lbs., being 398¾ lbs. more than last year's yield. In addition 6,004 lbs. of Cinchona febrifuge, 1,973 lbs. of residual alkaloids, 33 lbs. of cinchonine sulphate and 9 lbs. of other quinine salts were produced. Of the bark used 526,151 lbs. 15 oz. were of Java grown purchased *C. Ledgeriana* and Hybrid and 327,487 lbs. were of plantation grown bark, mostly *C. Ledgeriana*, but also small quantities of Hybrids Nos. 1 and 2 and *C. succirubra*. Details are given in Appendix C (2).* The laboratory analysis of the Java grown and of the plantation barks gave respectively 7·42 and 4·43 per cent. quinine sulphate. The actual yield in the factory—including the quinine in the Cinchona febrifuge—was respectively 5·7 and 3·4 per cent.

A second bark store of half a million pounds capacity and a shed for firewood of 10,000 maunds capacity have been erected. The bark-mixer has been strengthened, and is now capable of dealing with all the bark required for the present output of quinine. The separation of the crude quinine

sulphate from the acid liquor obtained in the extraction factory is being transferred from the purification factory to a small building adjoining the extraction factory, and the present lead-lined crystallising troughs are being replaced by concrete ones. This re-arrangement will leave the purification process a building to itself and facilitate cleanliness of working. A lathe and a filter press have been added to equipment. The experiments referred to in last year's report as being undertaken with a view to cheapen the cost of quinine production were continued on a larger scale, but gave unsatisfactory results, so that they have had to be abandoned. The factory reservoir remained firm throughout the year.

4. **General charges.**—These now comprise only such as cannot clearly be debited against any of the heads of expenditure II—VII shown under Appendix D* and amount to Rs. 11,165-9-5.

5. † **Mungpoo plantation charges.**—These amount to Rs. 38,031-3-9, and are detailed under Appendix D-II.*

6. † **Munsong plantation charges.**—These amount to Rs. 59,127-13-8 and are detailed under Appendix D-III.*

7. **Total plantation charges.**—The total charges of both plantations are Rs. 97,159-1-5. Each plantation bears the cost of carriage of its own bark to the factory godowns.

8. **Net manufacturing charges.**—The net expenditure—detailed under Appendix D-IV*—on the extraction and purification only of the products mentioned in paragraph 3 above is Rs. 76,698-6-11.

9. **Expenditure on factory additions and alterations.**—As detailed under Appendix D-V* Rs. 9,000 were spent on additional factory equipment and on improvement of various sections.

10. ‡ **Storage and distribution charges.**—The proportion of the total expenditure in connection with those charges accounted for by the Cinchona Department amounts to Rs. 5,827-7-3 as detailed under Appendix D-VI.*

11. **Expenditure on bark purchase.**—Rupees 1,84,743-10-6 were expended on the purchase, freight and carriage of 626,000 lbs. of Java grown *Cinchona Ledgeriana* and Hybrid bark. The total purchase sum represents—at the factory—both the cost and the market value—at the rates prevailing up to the end of March 1912—of the bark or of the quinine in it before extraction. Details are given under Appendix D-VII.*

12. **Cost of plantation bark.**—As the expenditure on the trees yielding the bark harvest of any given year is spent over varying periods of years from the planting of such trees to the time they are cut out and as any given area of Cinchona yields practically no bark for the first four years of its existence and then only "thinnings" until about the tenth year, to balance the expenditure of any year against the bark harvest of the same year would be approximately accurate only in the case of a plantation that had been in existence under even conditions for many years. This method is applicable neither to Mungpoo, the conditions of which have varied extremely, nor to Munsong, which is a young plantation, and has so far yielded only "thinnings." For the growing plantation of Munsong the method of estimating cost of bark now initiated is based upon the facts that in the Darjeeling district the maturity age—from the quinine-yielding point of view—of a *Cinchona Ledgeriana* tree is 10 years, and that practically no bark is harvested from any area under Cinchona for the first four years, while thereafter trees of various ages ("thinnings") are cut out until the tenth year is reached. So a 14 years period is selected and 10 per cent. of the total expenditure *plus* proportion of general charges on the total area under Cinchona from the first year of the period up to the end of each year is calculated *annually* for the first ten years of the period, and the total of the percentage sums balanced against the total bark harvest for the period of 14 years, the periods of 10 and 14 years respectively being annually shifted forward one year after the first 14 years period is completed. A detailed account of the method and of the calculations

* Not printed.

† The amounts debited by book transfer for medical stores under each plantation had not been communicated up to time of compiling this report.

‡ From the 1st October 1911 to the 31st March 1912 the sum of Rs. 1,748-11-6 not accounted for in this report was expended by the Prisons Department in connection with distribution of factory products.

is submitted separately in my letter C $\frac{*}{R}$ 4-1-42, dated the 15th July 1912. On this basis Munsong bark costs 1·84 annas per lb. As Mungpoo has ceased to grow the total expenditure since 1898 on Cinchona *plus* general charges but *minus* expenditure on re-afforestation has been balanced against the total bark harvest since 1898. The cost of Mungpoo bark works thus out to 2·49 annas per lb.

13. **Value of plantation bark.**—Bark is bought and sold on the basis of its quinine percentage obtained by laboratory analysis of samples, and the unit rate prevailing at time of buying or selling. The average of the unit rate from April 1911 to March 1912 is 3·14 Dutch cents per ½ kilo. Five Dutch cents=1 anna and ·5 kilo=1·102 lb. The laboratory analysis of the plantation bark gave 4·43 per cent. quinine contents. The value of the bark on the 1911-12 average unit rate basis is therefore $\frac{4\cdot43\times3\cdot14}{5}\times\frac{1}{1\cdot102}=2\cdot52$ annas per lb. or Rs. 47,152-5-7 for the total harvest of 299,380 lbs. This leaves a considerable discrepancy between expenditure on the plantations and the value of the quinine in the bark harvested before extraction. This is because the bark harvest was restricted—for reasons already mentioned—and from Munsong consisted entirely of "thinnings," while practically two-thirds of the expenditure on Mungpoo was concerned with re-afforestation work. The value of the proportion of quinine (10,203 lbs.) extracted from the harvested bark is Rs. 86,725 on the basis of the market rate or selling price (Rs. 8½ per lb.) for 1911-12.

14. **Cost of quinine production.**—This is made up of two components : (*a*) the cost of quinine in the bark before extraction, *i.e.*, the cost of the bark ; (*b*) the cost of extracting the quinine. 161,480 lbs. Munsong bark at 1·84 annas per lb. and 166,007 lbs. Mungpoo bark at 2·49 annas per lb. yielded 11,161 lbs. quinine and the cost of the quinine in the bark was therefore Rs. 3-15-7 per lb. The Java bark consisted of 278,897 lbs. of 1910-11 bark that cost (including proportion of general charges) Rs. 88,909·64 and of 247,254 lbs. 15 oz. of 1911-12 bark that cost (including share of general charges) Rs. 73,428·64. The cost per lb of the quinine (30,064 lbs.) in the Java bark before extraction was therefore Rs. 5-6-2. In all 853,638 lbs. 15 oz. of bark were used and Rs. 89,026-3-3 (net manufacturing charges *plus* proportion of general charges *plus* 5 per cent. on total cost of factory additions since 1899-1900) were spent in extracting 41,225 lbs. of quinine (including 846¼ lbs. in the Cinchona febrifuge manufactured). Cost of extraction per lb. of bark was therefore 1·66 annas. 327,847 lbs. of mixed plantation bark (cost rates per lb. given above) yielded 11,161 lbs. quinine. Therefore cost of extraction per lb. of quinine was $\frac{327,487\text{ lbs}\times1\cdot66\text{ annas}}{11,161\text{ lbs. quinine}}$ = Rs. 3-0-3. Total cost of production per lb. of quinine from plantation bark was therefore Rs. 7-0-3. The cost of extraction per lb. of quinine from the Java bark was $\frac{526,152\text{ lbs. bark}\times1\cdot36\text{ annas}}{30,164\text{ lbs. quinine}}$ = Re. 1-13. Therefore total cost of production per lb. of quinine from the Java bark was Rs. 7-3-2. The method of calculating on pounds of bark used is somewhat unduly favourable to a rich bark like the Java.

15. **Issue of products.**—On and from the 1st October 1911 the sale of factory products was transferred to the Prisons Department, and has since that date been conducted from the Juvenile Jail, Alipore. Details are given in Appendix F*, the material for which has been supplied from 1st October by courtesy of the Prisons Department. The issues of quinine, 15,838 lbs. 13¾ oz., show a heavy fall of 7,051 lbs. 7 oz. from the quantity issued during 1910-11, apparently due to lessened demands from the Medical Depôts and from the Prisons Department, Bengal, and the Central Prison, Lahore, for quinine for pice packets.

16. **Expenditure and receipts.**—For the last half of 1911-12 the receipts were dealt with by the Prisons Department, but to make this report more coherent the totals are stated here. The total expenditure within the Cinchona Department was Rs. 3,84,594-3-6, being Rs. 26,278-12-6 less than the sum allotted. The receipts were Rs. 1,52,903-7-3, being Rs. 2,31,690-12-3 less than the expenditure. The increase in the quinine reserve and in stock of bark considerably more than covers the difference between expenditure and receipts, as stock account and profit and loss account show. Details are given in Appendices B and D.*

* Not printed.

17. **Stock account.**—This is shown in Appendices C(1) and C(2).* The quinine reserve on the 31st March 1912 stood at 73,204 lbs. 11 oz., being an increase of 24,539 lbs. 14¼ oz. during the year. The items in stock at the beginning of the year have been re-valued, and the items taken into stock during the year and the items in stock at the end of the year have been valued at the average rates at which they were sold by or purchased by the department during 1911-12. The total value of stock of all sorts on 31st March 1912 was Rs. 8,75,561-12.

17. **Profit and loss account.**—This is shown in Appendix E.* There was a gain of Rs. 43,567-11 on re-valuation of stock in hand at the end of 1910-11. After deducting the non-recurrent charge of Rs. 9,000 for expenditure on factory additions, there remains a profit balance of Rs. 34,640-7-6.

18. **Sale of pice packets.**—The amount of pice packets sold in Bengal during 1911-12 is only a little less than the amount sold during 1910-11, but there has been a very large reduction in the quantity sold to what was Eastern Bengal and Assam and to other provinces from a value of Rs. 25,298-4-6 to Rs. 171-6-6. A statement supplied by the Inspector-General of Prisons, Bengal, is given as Appendix H.*

19. **Miscellaneous.**—Grazing fees and land rent from Mungpoo plantation amounted to Rs 5,405-10, which were paid into the Darjeeling Treasury, no account being taken in the departmental financial statement. Revenue to Government from this source is likely to decrease in the future as the area of re-afforestation extends.

Whereas We, taking into Our Royal consideration that there do not exist adequate means whereby We can reward important and useful services rendered to Us in Our Indian Empire in the advancement of the public interests of Our said Empire, and taking also into consideration the expediency of distinguishing such services by some mark of Our Royal favour: Now for the purpose of attaining an end so desirable as that of thus distinguishing such services aforesaid, We have instituted and created, and by these presents for Us, Our Heirs and Successors, do institute and create a new Decoration—to be designated as hereinafter described,—and We are graciously pleased to make, ordain, and establish the following Rules and Ordinances for the government of the same which shall from henceforth be inviolably observed and kept.

Ninthly.—In order to make such additional provisions as shall effectually preserve pure this honourable Decoration, it is ordained that if any person on whom the Medal of the First Class is conferred be guilty of any crime or disgraceful conduct which in Our judgment disqualifies him for the same, his name shall, by an especial Warrant under Our Sign Manual, to be countersigned by one of Our Principal Secretaries of State, be forth-

IV. *Prospects and probable outturn of harvests.*—Prospects of the *bhadoi* harvest are on the whole fair.

V. *Damage to crops.*—Some damage to jute and autumn rice by insect-pests and excessive rainfall was reported from Nadia, Jessore, Tippera, Dinajpur, Faridpur, Rangpur and the Chittagong Hill Tracts in the middle of the month. Towards the end of the month some damage to crops by the accumulation of water on low land was also reported from places.

NOTIFICATION.

No. 3071A.D.—The 20th August 1912.—The rules for admission into the Executive Branch of the Provincial Civil Service and into the Subordinate Civil Service in Bengal and Eastern Bengal and Assam were last revised in 1909 and were published under notifications dated the 10th June 1909. It was stated in the preamble to the notification of the Government of Bengal that the arrangements then made were sanctioned temporarily with the object of increasing the opportunities for providing qualified probationers in both services with appointments in the regular grades and of accelerating the promotion of qualified officers from the lower to the higher service. The latter object has, to a great extent, been attained; but as regards the former the result has not been all that could be desired. The difficulty of providing qualified probationers with appointments within a suitable limit of time was also apprehended by the Government of Eastern Bengal and Assam, and its annual recruitment was on this account reduced on the last occasion. The position is not altered materially by the territorial changes and the consequent redistribution of officers, as it is found that in both services in Bengal, some of the probationers appointed in 1910 are still waiting for appointments. Accordingly, the question of revising the rate of recruitment of both services has been under the consideration of Government for some time, but, for various reasons it has not been possible yet to come to a final conclusion as to the normal rate of decrement for which provision should be made. Meanwhile, as the time for the annual recruitment is drawing nigh, the Governor in Council has decided to make twelve appointments of Probationary Deputy Collectors and ten appointments of Probationary Sub-Deputy Collectors during the current year in view of the circumstances just referred to and of the fact that the strength of the Provincial Civil Service in Bengal has been reduced in consequence of the reconstitution of the Province from 354 to 299 and that of the Subordinate Civil Service from 182 to 175.

2. In revising the rules, those which were in force in Eastern Bengal and Assam have been fully considered. The rules regulating confirmation and promotion are still under consideration. The following Provisional revised rules for the recruitment of the Provincial and the Subordinate Civil Services are now published for general information :—

Provisional revised rules for the recruitment of the Executive Branch of the Provincial Civil Service.

Definition.—The Executive Branch of the Provincial Civil Service includes Deputy Collectors and Deputy Magistrates.

Rule 1.—The Governor in Council will determine from time to time what proportion of appointments to the Executive Branch of the Provincial Civil Service shall be made (1) by promotion of selected officers who are already in the Government service and (2) by selection.

Rule 2.—It is estimated that twelve appointments in all will be made annually. They will be made in accordance with the following rules.

Rule 3.—Three of these appointments will be made by the promotion of officers who are already in the Subordinate Civil Service. By the 1st October each year the Financial Secretary should forward to the Appointment Department one nomination, the Revenue Secretary two nominations, and the Board of Revenue two nominations. The nominations of the two former should be made after consulting the Heads of subordinate departments and those of the Board of Revenue after consultation with Commissioners of Divisions.

The age of an officer nominated under this rule should not exceed 40 years.

Rule 4.—The Governor in Council will retain three appointments in his own hands. Applicants for appointments under this rule should always state in their applications whether they will accept an appointment in the Subordinate Civil Service in case it is not possible to provide them with an appointment in the Provincial Civil Service.

Rule 5.—Six nominations shall be made on the 1st of October by the following officers :—

By the Commissioners of the Presidency, Burdwan and Dacca Divisions every year and the Commissioners of Rajshahi and Chittagong in alternate years beginning with Rajshahi	4
By the Syndicate of the Calcutta University	2
Total ...	6

Rule 6.—The Government of India or the Local Government may, in very special cases, make direct appointments to offices in the higher grades of the Provincial Civil Service.

Rule 7.—The four appointments to be made on the nomination of Commissioners will be filled in accordance with the conditions laid down in rules 8, 9, 10 and 11.

Rule 8 (a).—The indispensable qualifications for a candidate for appointment by recruitment are (1) that he is a natural-born subject of His Majesty or of a Native State; (2) that he is not under 20 or over 25 years of age; (3) that he is of good character; (4) that he is a graduate; and (5) that he is of sound health, good physique and active habits, and free from organic defect or bodily infirmity.

Rule 8 (b).—In the case of candidates who are not natives of the Presidency, recent residence of at least three years in it should, as a general rule, be an essential condition of selection. No Barrister, Advocate or Pleader should be appointed as such unless he has been at least three years actually practising his profession in India and can speak the vernacular of the Presidency.

Rule 9.—Europeans who do not satisfy the definition of Native of India, contained in section 6, Statute 33 Victoria, Chapter 3, are not eligible for appointment to the Provincial Service without the previous sanction in each case of the Government of India. With such sanction they may be appointed, if they satisfy the conditions laid down in rule 8, (*a*) and (*b*).

Rule 10.—All candidates for appointment by recruitment must furnish satisfactory evidence that they possess a thorough knowledge of Bengali. Candidates who have not already passed some recognized examination in the subject will be required to pass a special examination before admission. The object of the examination will be to test the candidate's general knowledge of the language and his ability to write and read the written character with facility.

Rule 11(a).—Every district officer* will submit to the Commissioner, who is to nominate under rule 5, on or before a date to be fixed by the latter, the names of two or three candidates (as the Commissioner may direct), belonging to families resident or domiciled in his district, for the Provincial Civil Service. In submitting these names he will give, in Form I appended to these rules, a brief statement of the grounds of his recommendation in each case. The nominees under this rule must be non-official, but this does not exclude the nomination of Honorary Magistrates.

(*b*) Form I must be accompanied by a certificate of the Registrar of the University that the candidate has obtained a degree, a certificate of character and conduct from the Principal of the institution at which the candidate last studied for not less than one year, or from some responsible officer of Government, a medical certificate in Form II appended to these rules, and evidence of the candidate's age.

(*c*) The Commissioner and the district officers of the division will meet on a date to be fixed by the Commissioner, and will consider the claims of all the candidates nominated. They will also call the candidates before them, and see and converse with them so as to form an opinion regarding their suitability for the public service. The Commissioner will then select two names and submit them in order of preference to Government, stating his reasons for giving preference to the one first entered. With his report

* In the Presidency Division this term includes the Chairman of the Calcutta Corporation

submitting these names the Commissioner will submit Form I for all candidates, entering in each case, in the last column of that form, his own opinion as to the suitability of the candidate.

(d) Every candidate nominated by a Commissioner must be domiciled in his division, or, if the nominee himself be resident outside the division for the purpose of education, his family must be resident or permanently domiciled in the division. In making nominations special attention should be paid to the desirability of securing a fair share of appointments to each important section of the community, to social qualifications and family status and influence, to services rendered by the candidate's father, and to distinctions obtained in the University.

Rule 12.—The Syndicate of the University will be invited annually to nominate four graduates of high character and of great academical distinction. The nominations will be made, subject to the restriction* laid down in condition V under paragraph 3 of the resolution of the Government of India, Nos. 1046—1058, dated the 19th August 1910, in accordance with the conditions laid down in rules 8, 9 and 10. From amongst these or from amongst graduates previously nominated by the Syndicate and who have not passed the age of 25 years, the Governor in Council will, after enquiry, select two persons to be Probationary Deputy Magistrates.

* "V.—Admission to the Provincial Civil Service should usually be confined to persons who are natives of the province or have definitely settled in it; in the case of candidates who are not natives of the province recent residence of at least three years in the province should, as a general rule, be an essential condit on of admission. * *."

Rule 13.—Every Probationary Deputy Collector, appointed by recruitment, must furnish, either before appointment or within a specified time after appointment, a certificate of his ability to ride, signed by a district officer or by the Joint-Magistrate in charge, or by the Commissioner or Deputy Commissioner of Police, Calcutta.

Rule 14.—The minimum term of probation will be one year. On termination of that period appointments will be given to approved probationers as vacancies in the cadre occur. Provided that, in special cases, the local Government may declare the period of probation or training prescribed for persons appointed to the Provincial Civil Service by direct recruitment to be unnecessary. Probationers will receive a subsistence allowance of Rs. 100 per mensem. Probationers already drawing more than Rs. 100 per mensem in Government service will, however, receive an allowance equal to the salary of their former appointment or to the pay of a Deputy Collector of the lowest grade, whichever is less.

II.—Forms of "Tender" and "Schedules" (I. A. F. Z. 2120, 2121 and 2122) of the stores for the supply of which tenders are invited are obtainable on payment at the rate of Re. 1 per set on application in writing, and samples of the articles to be supplied can be inspected at the Depôt Godown, Remount Depôt, 25, Garden Reach, Calcutta, any day (Sundays and holidays excepted) between the hours of 10 A.M. and 2 P.M.

III.—Tenders will only be received in accordance with the conditions on these printed forms, which must be submitted in English and should specify in words as well as in figures the rate at which each description of article named in them will be delivered. In the case of Promissory Notes being furnished they must remain in the name of the depositor.

V.—No security or deposit which the tenderer may have furnished in connection with a previous contract or on any other account can be accepted as earnest-money.

VI.—The approval or rejection of tenders rests with the Quartermaster-General in India, who reserves to himself the right of rejecting any tender, or any items in a tender, without cause assigned. The lowest tender will not of necessity be accepted.
